

## **Cops and Robbers (Team Tag)**

This popular version of tag is also commonly known as “jail tag” or “police and thief”.

Participants will be split into two groups at the start of the game – “cops” and “robbers”. The cops must pursue the robbers and tag them in order to catch them.

Once tagged, a robber must sit in a pre-defined location that is called the “jail”.

Robbers can release fellow robbers who have been imprisoned in jail by tagging them, as long as they don’t get tagged themselves during the prison break.

The game is over when the cops have managed to round up all of the robbers. Some versions of this game will allow the robbers to hide before the cops can look for them.
