

Five Little Rockets Standing in a Row

(Sung to the tune of 'Ten Green Bottles', with an additional spoken sentence.)

Five little rockets standing in a row,
Five little rockets standing in a row,
When one little rocket decides it's time to go,
Five, four, three, two, one, blast off!
There'll be four little rockets standing in a row.

Four little rockets...

Three little rockets...

Two little rockets...

One little rocket...
